

Ramesh Sujanthan

Aspiring Software Engineer — Full-Stack (React + Tailwind · Java + Spring Boot)

sujanleo242@gmail.com | linkedin.com/in/ramesh-sujanthan | github.com/sujanthan242 | Sri Lanka

EDUCATION

BICT (Hons) — Software

2023 — 2027

South Eastern University of Sri Lanka, Faculty of Technology

Bachelor of Information and Communication Technology, 2023/2024 batch — currently Year 2, Semester 1.

Java + Spring Boot Specialization

In progress

Udemy · Telusko

Core Java to Spring AI: Spring Framework, Spring Boot, REST, Spring Data JPA, Spring Security, JWT/OAuth2, Docker, microservices.

TECHNICAL SKILLS

Languages	Java, JavaScript, HTML5, CSS3
Frontend	React, Tailwind CSS
Backend	Spring Boot, Spring Security, Hibernate / JPA, REST API design
Data & Auth	PostgreSQL, JWT authentication
Tools	Docker, Maven, Git & GitHub, CI/CD basics
Exploring	Spring AI, RAG pipelines, microservices, system design
AI-assisted	AI tools for coding, debugging and learning

BUILDING

SL Tech Students Weekly

Newsletter · Weekly

A newsletter for Sri Lankan tech undergrads — hackathons, internships, free courses and scholarships with deadlines.

Git & GitHub for Hackathons

E-book · In progress

A practical e-book taking students from zero to their first pull request — written for hackathon weekends.

Java + Spring Boot Mastery

Deep in progress

Comprehensive Java/Spring course — Core Java to Spring Boot, REST, Security, Docker and Spring AI.

HIGHLIGHTS

- Grew a LinkedIn network of **1,300+ engineers, students and recruiters** — learning how the industry talks.
- Learning in public: newsletter, e-book and open-source-style building while studying full-time.
- Open to **software engineering internships** — ships, learns fast, builds with AI in the loop.
